

# Home Learning Challenges

Summer 1

Year 1

## Enquiry and PSHE

Kindness

### Our World

In class we have been thinking about how we all have something important to say about protecting the world we live in. You had beautiful ideas about how to protect our precious planet. Please can you share this message with someone in your family and help them think about any changes they could make.

## English

Rhyming  
Strings

Can you create a rhyming string?

For example,

*Snail, whale, tail, sail, male and fail.*

To start you could choose one of these words from our focus story: 'flock', 'boat', 'ocean' or 'sea'.

## Physical Education and Mathematics

Athletics  
And  
Multiplication

### Distance Throwing

Can you have a go at an overarm and an underarm throw? Which one travels a further distance?

Can you try to increase your furthest throw? You will need to use the strength in your whole body by leaning back and pushing forwards. Use a stick, pinecone or leaf to mark the furthest throw. This will give you a target to try and beat.

Could you have a throwing competition with your family or friends? You could set out markers for 2 points, 5 points and 10 points. You may need to use your addition or even your multiplication skills to work out your score once you have thrown multiple times. Don't forget to record your results!

Due Date: Monday 20th May  
2019
