Spellings

Each child will have different spellings to learn linked to their learning from class. We will review these regularly but not in a formal test. Your child's spellings will be stuck into this book every two weeks.

As part of their practice, please put words into sentences, using joined handwriting, to show understanding.

Enquiry

What are my childhood roots? This term Class 1 are thinking about our childhood experiences and the importance of children exploring their natural environment by spending time learning/playing within their natural surroundings. Could you take photographs of you and your family enjoying the outdoors and write a simple sentence, draw a picture or write a poem about how this made you feel?

Maths

Each child will have an appropriate My Maths activity linked to their Maths learning from class. Please watch the teaching video for support.

Remember to keep practising your times tables on Times Table Rockstars as well.

Log in details for both are at the back of this book.

Class 1 Learning Log

Reading daily
Spellings and Maths bi-weekly
Enquiry termly

Homework club runs every week for whoever may need extra support. Computer access is available then.

What are my roots?

Value: Respect

Class 1, Year 1

Spring 1, 2020

Please let me know if you need any support or resources to be able to complete the tasks.

Reading

Your most important home learning is Reading - it will help to unlock other learning - read your schoolbooks, enjoy your library/ book corner book. share a book at bedtime, learn some facts in a non-fiction book. Don't forget to write down in your *love reading journal* every time you read and especially when you finish your book, now and again there will be sticker prompts (like, read a story with expression, act it out etc) to inspire you! Enjoy and remember imagination is free!
