

Home Learning Challenges

Summer 1

Mathematics

Doubling and Halving	Can you double and halve items of food at home? Maybe it could be halving a whole, like a pizza or sharing out grapes.
Counting in 10's	Can you spot items of 10 when you're out and about? Is there an easier way of counting them? Teach a family member how to do this carefully.
Measure	We are growing plants in class. Can you measure a plant at home and see how it grows over time?

Topic

Seed Challenge	Could you plant some seeds at home and see how they change over time?
Where does it all begin?	Do you know where your fruit and vegetables come from? Can you discuss with your family which grow on trees/plants and which grow underground?
Little Artists	Can you create a piece of art at home using the available resources and your creative spark? Have fun!

Literacy

Familiar Texts	Can you make a poster about your favourite traditional tale?
Storytellers	Can you draw and label your own storymap for a new story of your own?
Reading Detectives	As we are developing our reading, it is vital you understand what you have read. Can you explain the story to a family member?

Phonics

High Frequency Words	You have done really well to learn your high frequency words. We will be sending some more home this term to practise.
Digraphs and Trigraphs	It is really important that these are used within your writing. Can you show us where/when you have used these in your home learning?
Alphabet	Can you sing an alphabet song but also recognise your letters out of order in both upper and lower case?

Physical Development

Fine Motor	Can you control your letters and practise sitting them appropriately on the line? Have a write-off!
Gross Motor	Can you design a creative dance to your favourite song at home? You might like to video this and put it on Tapestry to share.

Important Note:

Thank you for all your effort last term. This term can make all the difference in getting your child where they need to be and in a good place ready for Year 1. Great things happen when we all work together.

This is an exciting time but please come and talk to us if you have any questions.
