

## Class 4 Homework Grid 17.06.19

We will celebrate and share your homework and creations on Friday 28<sup>th</sup> June.

Remember that you can use any paper you need from school and then carefully stick your beautifully and proudly completed work into your homework folders.

### Maths

How many 3D shapes do you see everyday? Keep a record of the 3D shapes you find, explain why they might be that shape. E.g A cereal box is a cuboid because it is easier to stack. Can you draw their net too? Is there more than one way to draw the net?

Remember to check your MyMaths too for some extra shape tasks that may be set.

### Reading

Continue to read for at least twenty minutes at least four times a week. Across the week there will be opportunities to share your book with the class.

### English - Research

Using the ideas we've explored about the four main human characters in A Midsummer Night's Dream (Lysander, Demetrius, Hermia and Helena) create a playscript between them considering the feelings they may have towards each other. It could involve the drama we have completed in class.

Don't forget those stage directions too!

### Creative Learning

Our performance this term will be A Midsummer Night's Dream by William Shakespeare which is set amidst a magical forest beneath the moonlight. Draw, build or cook a scene for the play and if possible include some of the characters. Be prepared to explain your beautiful portrayal.
